

DINOSAURUMPUS!

Next term we will be learning about Dinosaurs! We will be looking at the different species of dinosaur and the environment they may have lived in. In our science we will be looking at animals including humans, including learning about herbivores, omnivores and carnivores. We will also be looking at different categories of animals e.g mammals, reptiles etc.

For our Fabulous Finish, we are planning an exciting trip to Paradise Park in Newhaven! This is still in the planning and finalising stages so a further letter will be sent out in Term 3 with details.

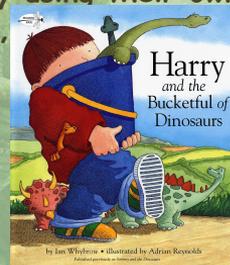

Just a few reminders:

- Please ensure all children have named PE kits in school each week.
- Read, read, read! Please continue to read with your child at home and sign the homelink book to let us know that the books have been read.
- Please ensure ALL items of clothing are named - this includes hats, scarves and gloves. Thank you :)
- Please remember that all children should have a named school bottle that should only have water in it.

In English, we will be learning the story 'Harry and the Bucketful of Dinosaurs' as well as looking at some other dinosaur related stories. The children will re-tell parts and change the story using their own ideas. Within this context, re-inforce use of correct punctuation.

They will also find out about the dinosaurs in Harry's story.

We will be writing non-fiction dinosaur fact files.

Also this term...

In Maths, we will be covering addition and subtraction within 20 and then looking at numbers to 50.

In History, we will be finding out about Mary Anning and her fossil hunting adventure.

In Design Technology, we will be focusing on mechanisms and making moving dinosaurs.

In PSHE, we will be looking at how to keep ourselves healthy!

In Religious Education, we will continue looking at Christianity, focussing on friendship and kindness.
